

# FRICTION

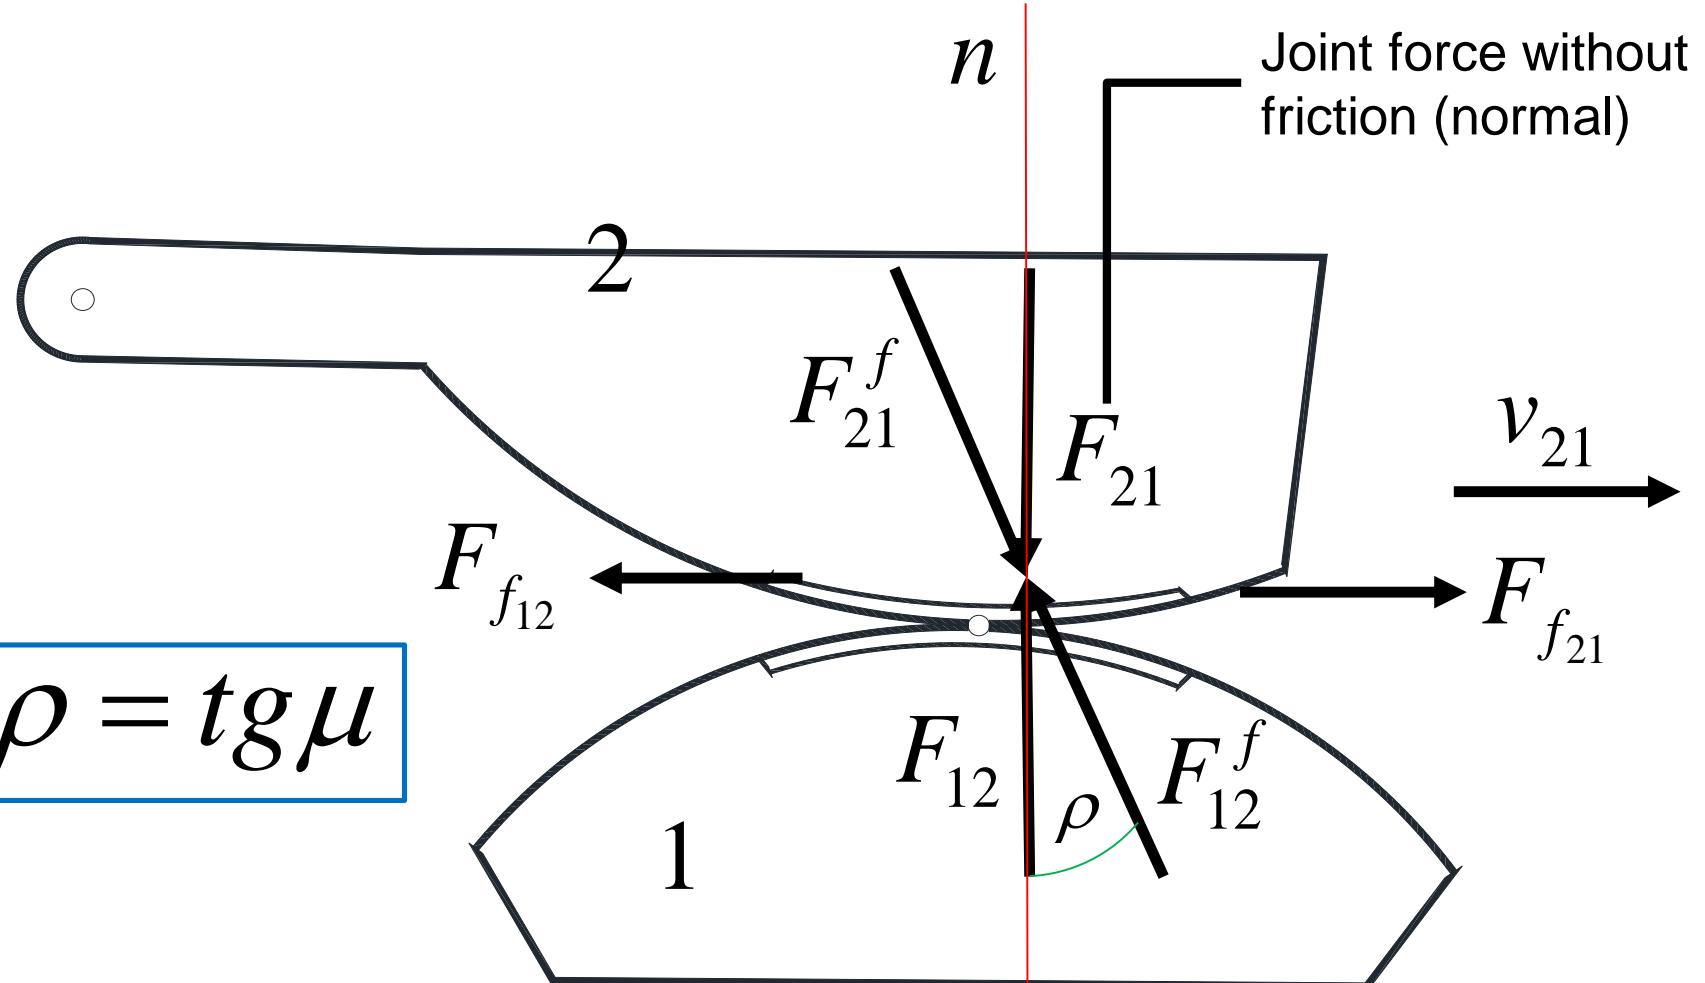

# Friction force phenomenon

$$F_f \leq \mu \cdot F_N$$

coefficient of friction  $\in (0 \div 1)$

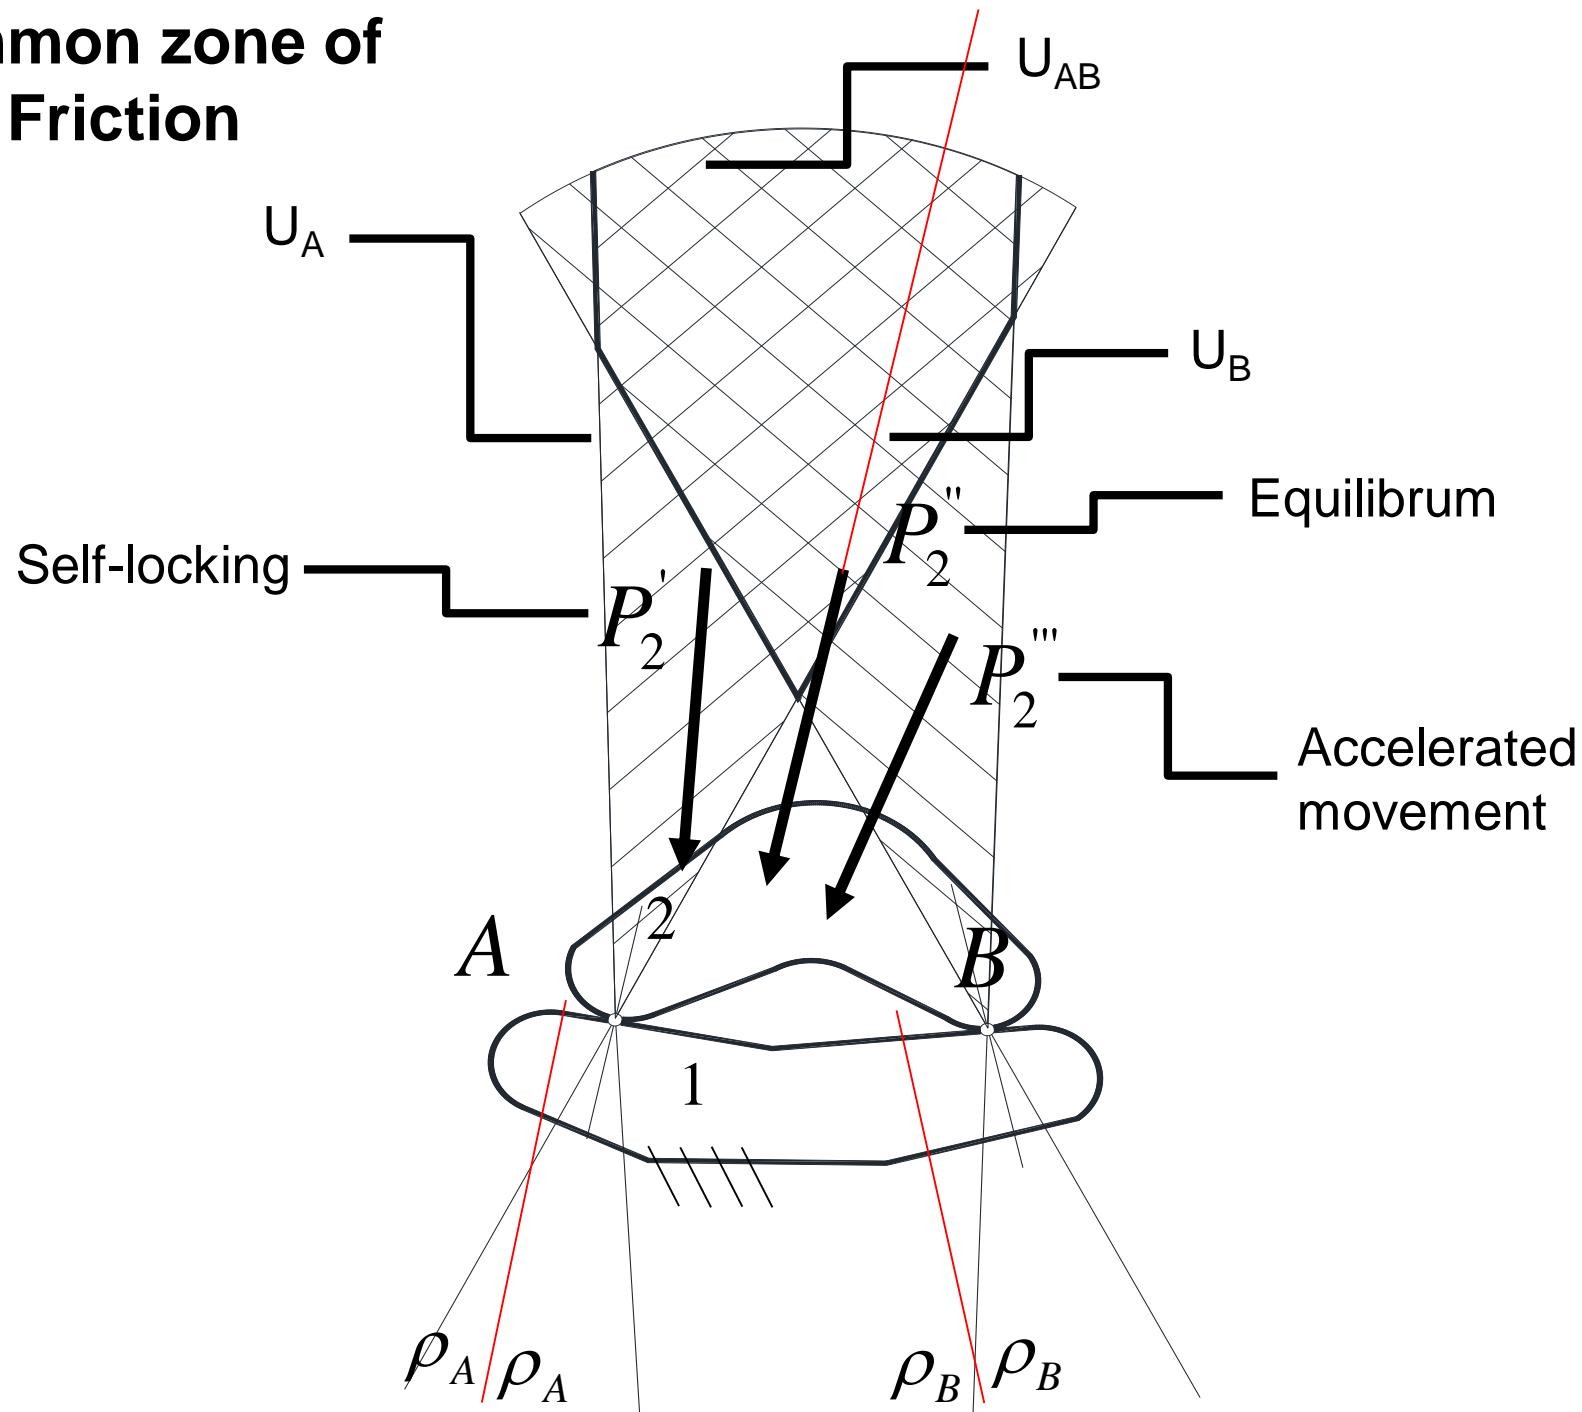

# Angle of Friction

$$\rho = \operatorname{tg} \mu$$

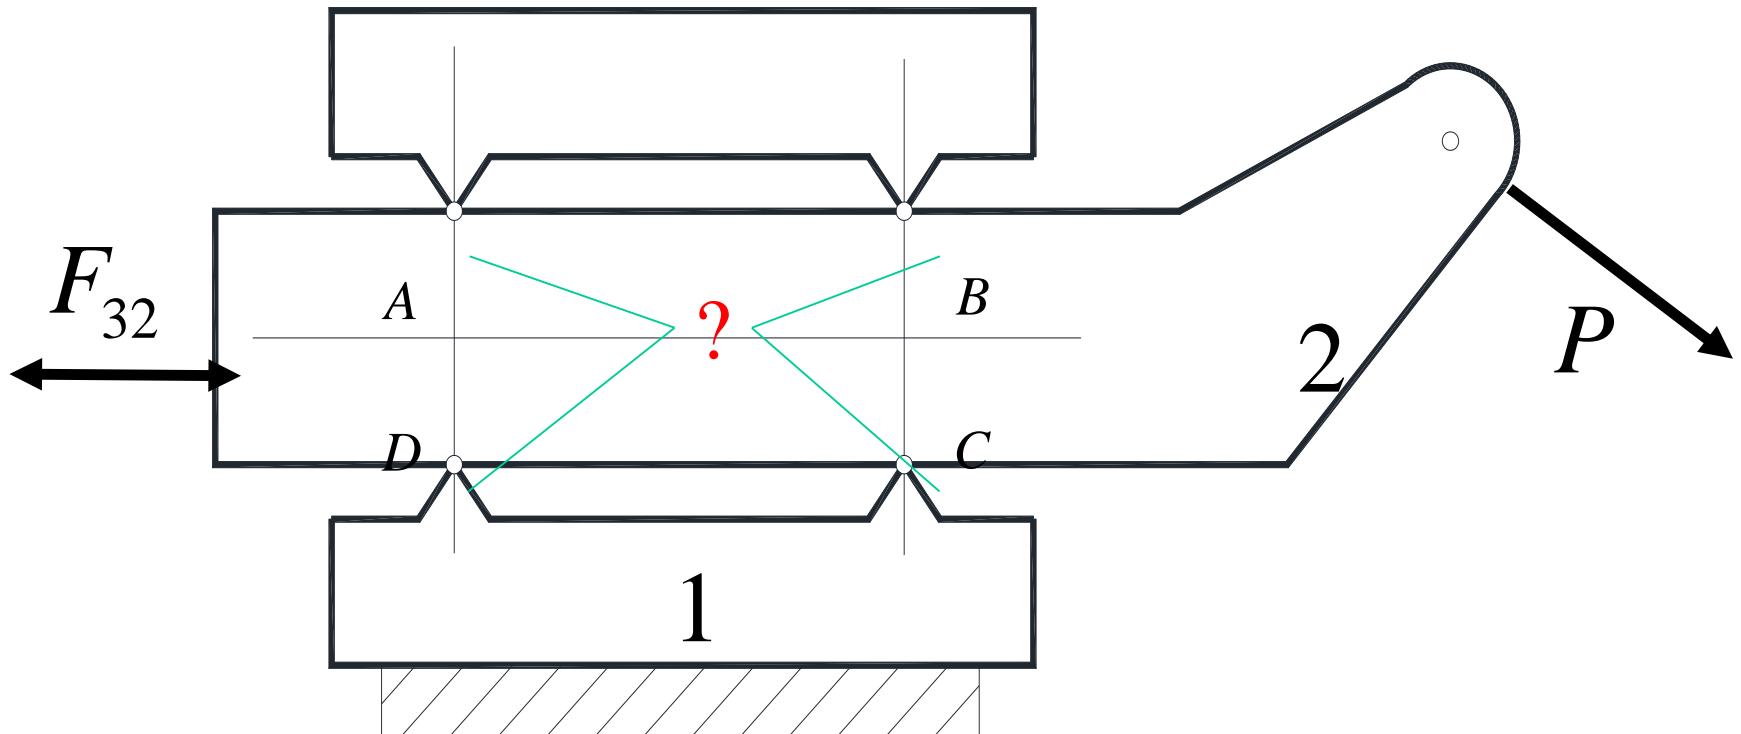

$$F_{21}^f = F_{21} + F_{f_{21}}$$

# Common zone of Friction

# Friction in translational joint

Two reaction points (which two?)

# Friction in translational joint
